¹ This column lists each MSA area and each county, or county equivalent, in the MSA area. Counties not listed in this table are considered to be Rural areas. Index values for these areas are found in Chapter 11, Addendum C (FY 2001).

² Wage index values are based on FY 1996 hospital cost report data prior to reclassification. The wage index is further adjusted. Wage index values greater than 0.8 are subject to a budget neutrality adjustment of 1.065425. Wage index values below 0.8 are adjusted to be the greater of a 15 percent increase, subject to a maximum wage index value of 0.8, or an adjustment by multiplying the hospice wage index value for a given area by the budget neutrality adjustment. All of these adjustments have been completed and are built into the wage index values reflected in this table.

¹ This column lists each MSA area and each county, or county equivalent, in the MSA area. Counties not listed in this table are considered to be Rural areas. Index values for these areas are found in [Chapter 11, Addendum C \(FY 2001\)](#).

² Wage index values are based on FY 1996 hospital cost report data prior to reclassification. The wage index is further adjusted. Wage index values greater than 0.8 are subject to a budget neutrality adjustment of 1.065425. Wage index values below 0.8 are adjusted to be the greater of a 15 percent increase, subject to a maximum wage index value of 0.8, or an adjustment by multiplying the hospice wage index value for a given area by the budget neutrality adjustment. All of these adjustments have been completed and are built into the wage index values reflected in this table.
